Many of our products are available in a range of coordinates. See the index (page 138) for a full listing.

I think you'll adore our new collections, which capture the quality you love from Pine Cone Hill with a fresh, pretty new look, a fun, vibrant take on coastal style and a new collection of bedding essential sets.

Our Joie de Vivre collection is feminine and romantic, yet not too precious. Inspired by Paris in the spring, you'll love the painterly print of our new Jardin bedding, and the sublime olive and peach palette of Oiseaux. You'll also find luxe velvets, in both bedding and decorative pillows, and new striped bedding that coordinates perfectly with everpopular lnes – now in oh-so-salable Blue!

Happy Fish is inspired by the sea. The colors and patterns are vibrant, decidedly energetic, and a little youthful, with just the right amount of fun mixed in. You'll appreciate the selection of bedding, decorative pillows and throws, and how they work so well with our C3 Classic Colorful Coordinates, and many Pine Cone Hill favorites too.

Bed 101 is an exciting new endeavor for us, showcasing Pine Cone Hill quality in accessible, effortless, relaxed foundations of elemental bed decorating. Offered in three core colorways, these bedding sets are a perfect entry point for the new homeowner, Airbnb-er, recent college grad – really any stage of life.

Let's keep the conversation going on social media!

Cheers,

It's easy to choose the perfect down and down-alternative pillows, blankets, duvet inserts, and mattress pads. Read about them here or on our website to determine which of our Bedding Basics is right for you.

For down products, professional cleaning is recommended. Or machine wash warm water, gentle cycle, with mild detergent; use an extra rinse cycle. Dry on medium heat; 2 to 4 cycles may be needed to completely dry the down, which is critical before using or storing. Store dry down products in a breathable storage bag in a dry closet or cabinet.

For down-alternative products, machine wash warm with mild detergent on gentle cycle. Air fluff or dry on low heat (too much heat will melt the filling); 2 to 4 cycles may be needed to completely dry the filling. Store dry down-alternative in a breathable storage bag in a dry closet or cabinet.
